

Agri-based plasticizers delivering
efficiency and productivity.

Cargill Biovero™ Plasticizers

No added phthalate plasticizers delivering efficiency and economics with a zero-harm commitment to the planet.

Environmental consciousness is the new standard for today's flexible PVC products and the plasticizers they contain. Responsible companies must continually evolve to meet the rigorous regulations for the PVC industry.

Cargill Biovero™ plasticizers are truly phthalate-free and engineered from bio-based materials.

We help customers meet the rapidly changing demands of industry regulations without compromising reliability or overall performance.

The Cargill mission has never wavered: to deliver solutions that are good for people and the planet.

High efficiency plasticizers for the future of the polymers industry.

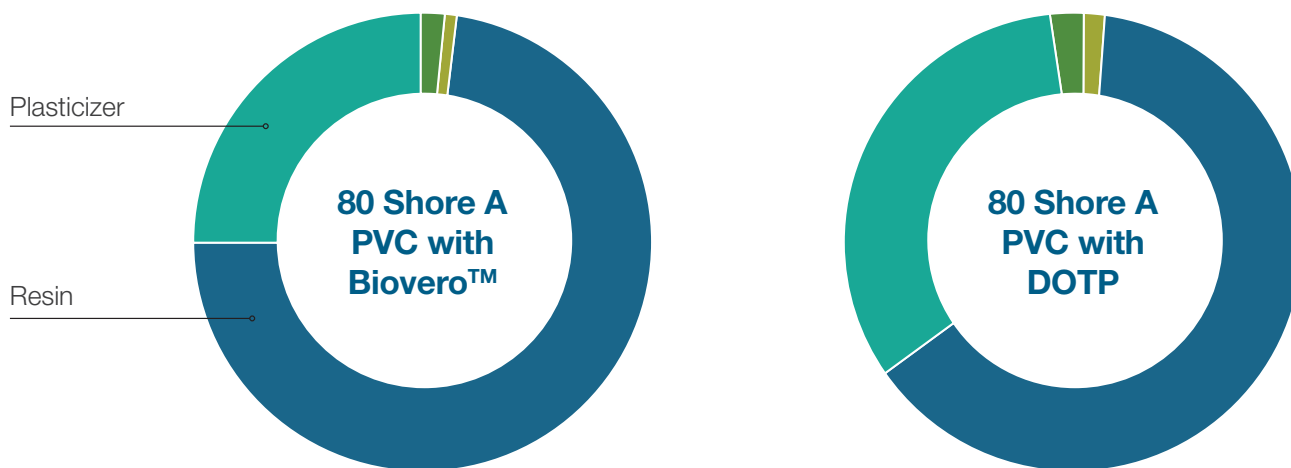

Our bio-based plasticizers achieve a balance between responsible ingredients and cost. Cargill leverages its global presence and renowned technology to deliver plasticizers that meet regulatory constraints without compromising the bottom line.

The Cargill advantage means you have access to the world's leading scientists and agricultural-based technology for plasticizers that meet the next level of expectations. Learn more about Cargill Biovero™ plasticizers below.

Product Characteristics

Bio-based and cost-competitive	Substantially improved compatibility	Reduced environmental impact compared with the alternative
Improved cost in use	Extended thermal stability	Enhanced processability

Performance

Biovero™ plasticizers have a lower use ratio and allows for 100% replacement of ESO - enabling higher use of fillers. This results in proven plasticizer efficiency and increased process throughput.

Bio-based technologies and unique chemistries.

Plasticizer regulations are constantly evolving, as protecting the planet is an ongoing mission. Cargill's commitment to sustainability means taking an active role in a reduced environmental footprint. Cargill plasticizers deliver permanence and efficiency with a zero-harm commitment to people and the planet.

PERFORMANCE	PORTFOLIO	PEOPLE	PLANET
Choosing ingredients that support a circular economy.	Gain cost efficiencies by partnering with Cargill's full portfolio of ingredients and expertise.	Helping people <i>thrive</i> through responsible solutions and practices is a Cargill priority.	Cargill is invested in a global mission to preserve the planet.

Cargill is a global presence in plasticizers.

Choosing Cargill provides your business an undeniable advantage. With a global supply chain and world-renowned R&D, Cargill has the resources to execute with precision.
